

## [TheHorse.com Presents Ask the Vet LIVE Q&A: Weaning](#)

July 20th, 2010

Lexington, Ky.—It's about time of year again, when breeders are preparing to wean this year's foal crop. Whether you're weaning your first foal or you're an old hand, weaning can be quite stressful for foals, mares, and their owners! Do you have questions about weaning strategies and health concerns for recently weaned foals and/or their dams? You're not the only one! Join us on Wednesday, July 28, from 8:00 to 8:30 p.m. EST for our Ask the Vet Live question-and-answer chat event on weaning, when veterinarians will be on call to answer your questions!

This free live chat event is brought to you by The Horse Health Care Library, available at [ExclusivelyEquine.com](#).

\* Space is limited, so reserve your Webinar seat now! <https://www1.gotomeeting.com/register/882730545>

Our on-call veterinarians for this event will include:

Lucas Pantaleon, DVM, MS, Dipl. ACVIM, who joined Woodford Equine Hospital in Versailles, Ky., in March 2007. He obtained his Doctor of Veterinary Medicine degree from the University of Buenos Aires, Argentina, in 2000, and a Master of Veterinary Science from Virginia Polytechnic Institute and State University in 2005. He became a Diplomate of the American College of Veterinary Internal Medicine in 2005. He has a special interest in neonatology and his hobbies include sports, outdoor activities, and cooking. Lucas and his wife, Ruth, live in Versailles with their Rhodesian Ridgeback, Shumba.

Scott Kendall, DVM, who joined Woodford Equine as an Associate Veterinarian in January 2006 after having spent the previous 15 years as the resident veterinarian at Hermitage Farm in Goshen, Ky. He obtained a Bachelor of Science degree in Zoology at the University of Iowa in 1980, and a Doctor of Veterinary Medicine degree from Iowa State University in 1984. After graduation, he spent a year at The National Stud in Normandy, France, specializing in equine reproduction. He lives in Bourbon County with his wife, Elise, and son, Stuart, where they own and operate Netherfield Farm.

We hope you can join us on July 28 for this event! Reserve your Webinar seat now!

Next month's Ask the Vet Live Q&A topic: Common Hoof Problems, with Tracy Turner, DVM, MS, Dipl. ACVS, of Anoka Equine Veterinary Services in Elk River, Minn.

About The Horse:

The Horse is an all-breed, all-discipline media group that disseminates the latest and most reliable news and information on the health, care, management, and welfare of equids through print and electronic means. The Horse monthly magazine won the overall General Excellence Award presented by American Horse Publications in 2006. The group publishes a series of authoritative electronic newsletters received by an international audience numbering in the hundreds of thousands. TheHorse.com Web site offers trusted health-care information to an international audience. More than 213,000 unique visitors access TheHorse.com in a typical month, generating more than 1 million page views. The Horse, a product of Blood-Horse Publications, is an official media partner of the American Association of Equine Practitioners, the American Association of Equine Veterinary Technicians and Assistants, and the World Equine Veterinary Association.

Senator Lincoln was elected to the House of Representatives in 1992 and made history when she became the youngest woman ever elected to the Senate in 1998. She made history again when she was tapped as Chair of the Senate Agriculture, Nutrition, and Forestry Committee in September, 2009. In the Committee's 184-year history, she is the first Arkansan and first woman to serve as Chair.

Senator Lincoln also serves on the important Senate Finance Committee, which writes our nation's tax laws, the Senate Committee on Energy and Natural Resources Committee and the Senate Special Committee on Aging. From all these platforms, Senator Lincoln is a leader on a wide range of issues, including farm policy, nutrition, forestry, social security, health care, tax policy, international trade, energy policy, again issues, and benefits for Arkansas's military service members, veteran, and their families.

"Senator Lincoln has been a long-time friend and supporter of the horse industry. We are pleased to recognize this by presenting her with the 2010 Rolapp Award," said Hickey.

## [Cookies with a Clue Indulge Your Horse to a Healthier Diet](#)

July 20th, 2010

Cookies with a Clue

Indulge Your Horse to a Healthier Diet

July 19, 2010—Providing your "easy keeper" horse with the best nutrition is hard enough, especially with the millions of products out on the market. Yet, what are you to do if your horse is not an "easy keeper" or if your "easy keeper" suddenly surprises you with a bout of colic or some other ailment.

The answer is to just give him some "Cookies with a Clue."

You have your colicky horse with the super sensitive stomach or your overweight horse that no matter what the diet still seems to need a new girth every week. There's the older horse with arthritis that has some sort of negative side effect to every drug. Your horse might be the off-the-track Thoroughbred who can't be ridden for two days after receiving supplements because he gets "hot." Maybe you have a show horse that you are scared to give anything because of all the drug rules and regulations. There's also the worry wart horse that thinks every trailer ride, stall change and body clip is going to end his life.

If any of these describe a horse you know then you are in luck because KAM Animal Services has provided a quick, easy and safe solution to just about any ailment. "Cookies with a Clue!" is here to help. There are five types of cookies to choose from and all you have to do is choose the best fit for your horse. And since the trusted nutritionists at KAM were the masterminds behind these cookies, you can be assured they are 100% natural.

KAM, which was started by talented nutritionist, Gabriele Sutton, specializes in equine nutrition and using all natural products. They believe that every equine problem can be helped or solved with the use of a natural nutritional diet. Their mission is to help customers implement a specific well-balanced diet using high quality natural feeds. KAM's staff of equine professionals – including veterinarians, researchers and nutritionists – are knowledgeable in all disciplines and have helped people design healthier diets for horses of all breeds. KAM offers guidance through their website, emails, phone calls and even in person visits if necessary.

"Cookies with a Clue" give a fresh and simpler approach to nutrition. Each of the five different types of cookies has its own use.

- Belly Bites- Give great nutritional support to the gut. They promote healthy digestion and nutrient absorption along with reducing the risk of stomach problems such as ulcers, gas and colic.

- **Booster Bites-** Provide a boost of vitamins and minerals in a way that your horse will actually enjoy eating, without the extra unwanted energy.
- **Chubbies-** Offer a safe, delectable tasting way to encourage endocrine balance and healthy insulin production. Since these cookies have no sugars they are ideal for overweight horses that still deserve to be pampered, even those with EMS and IR.
- **Owchees-** Present achy horses with an appetizing alternative to nasty-tasting drugs or medicine. They relieve horses of pain or discomfort from inflammation without harmful side effects or stress on the digestive tract.
- **Stress Busters-** Grant tranquility to nervous and anxious horses. The special nutrients and homeopathic remedies in these cookies calm the nerves of scared horses and give them a boost of confidence.
- **KAM** also provides the “Survivor Kit” which has one of each, so you can be equipped for any situation.

“For years now customers have told us about the many challenges they face when feeding supplements. For some it is too complicated and too time consuming. In other cases the horse leaves the supplements behind. Cookies with a Clue are all natural, easy to feed and provide your horse with all the nutrients he needs,” explained Gabriele when questioned about the reason behind the new cookies.

“Cookies with a Clue” take the worry out of supplementing your horse. Since they are all natural and do not contain any fillers, additives, chemicals or sugars, no harm can be done. Feed these treats whenever and wherever, either one kind of cookie or a variety.

Unlike most equine health products, “Cookies with a Clue” are completely legal in the show ring, making it absolutely acceptable to sneak a quick treat to your partner before the next class. These cookies can only benefit your horse, by making them feel healthier and spoiled at the same time.

For more information on these one-of-a-kind cookies and other helpful aids from KAM Animal Services, call 519-463-9640 or go to [www.kamanimalservices.com](http://www.kamanimalservices.com).

## [StepnSoak Hoof Soaking System joins Jeffers Pet Supply Hoof Care Line Up](#)

July 20th, 2010

### **StepnSoak Hoof Soaking System joins Jeffers Pet Supply Hoof Care Line Up**

#### **StepnSoak – Aiken SC**

StepnSoak Hoof Soaking System is proud to announce they have been included in the July 14th catalog line up of health and animal supply products offered nationwide by the highly respected Jeffers Pet Supply.

StepnSoak is the new one piece “slip on and tie” matte vinyl hoof treatment system with a design versatile enough to be effective for use in soaking, deep conditioning and wound treatment of horse, livestock and large zoo animal paws and hooves. The unique patented slip on design of StepnSoak offers a base which can expand to accommodate up to a 9.5 Draft size hoof yet when folded in half is small enough for use effectively on a sheep, goat, cow, donkey, pony or mini.

Jeffers Pet Supply is one of the largest privately owned catalog and e-commerce animal health supply retailers. Jeffers Pet Supply began in 1975 in the home of Dr Keith Jeffers and has grown to consist of 3 catalogs – Jeffers Pet, Jeffers Equine and Jeffers Livestock which is shipped to over 300,000 customers every change of season.

The Jeffers philosophy is to offer their clients the highest quality, most up to date products at the absolutely best price. With this philosophy Jeffers welcomes the new double strength Ultra StepnSoak Hoof Soaking System as a worthy addition to their Hoof
